

Agrii-Start

# Drill+

**Agrii-Start Drill+ is designed for use specifically in placement drills.** The unique formulation contains both NPKS, MgO CaO and trace elements Mn, Cu, B & Zn.

Agrii-Start Drill+ is suitable for all crops. The product has the added feature of **controlled release technology**, utilising a biodegradable polymer which keeps the nutrition where the plant needs it.

Controlled release fertiliser (CRF) enables the fertiliser to provide a steady release of nutrients matched to crop uptake.

The fertiliser starts to work at soil temperatures over 5°C. This results in a product that's better for the environment thanks to reduced leaching, volatilisation and denitrification.

Placing fertilisers in a band enables the user to target nutrients where the crop needs them the most. Banding fertiliser also helps to reduce establishment costs and to reduce pressure on the environment due to inefficient use of fertilisers.

## BENEFITS

- 1** Reduces N leaching **Up to 60%**
- 2** Reduces NH<sub>3</sub> volatilisation **Up to 70%**
- 3** Reduces N<sub>2</sub>O emissions **15%**
- 4** Increases yield by **25%**
- 5** Increase NUE by **60%**
- 6** **Safe** to germinating seedlings

- + A **phased release of nutrition** helps to maintain suitable electrical conductivity levels for nutrient absorption.
- + This product will be **well suited for OSR and spring barley**, especially as a placement starter fertiliser.
- + The **potash and phosphate are combined into one granule**, with sulphur and potash being sourced from polysulphate, so won't leach away in more adverse conditions.
- + A **combination of zinc, manganese, boron and copper** are also provided in the same granule.
- + A **two-way blend helping with reliability** in the drill when being used as a placement material.

## APPLICATION RATES

PRODUCT	CROP	APPLICATION METHOD	KG/HA	N	P	K	S
Agrii-Start Drill+	OSR	Placement	95	14.25	19	2.47	9.5
Agrii-Start Drill+	OSR	Broadcast	200	30	40	5.2	20
Agrii-Start Drill+	Spring Barley	Placement	105	15.75	21	2.73	10.5
Agrii-Start Drill+	Spring Barley	Broadcast	350	52.5	70	9.1	35
